National PAI Portal - State Specific Configuration

State PDI Portal Nodal Officer shall perform following operations to configure the National PDI Portal as per their State Specific environment

- Register Block Level Offices who shall be responsible for verification of data of their sector as submitted by the Gram Panchayats
- Register Field level Level Offices of various departments who create / own and maintain the sectoral data related to the GP and shall provide the data to Gram Panchayats
- Select the optional PDI indicators as per their State specific requirements.
- Configure the data points that are to be collected from field. They shall enter following details are each data point.
 - > Description of the data point as per State specific practices and languages
 - > Assign the Field office that are provide the data
 - > Select the register being maintained by the field office from where the data shall collected and verified.
 - > Record instructions / hint for the Panchayat Staff for collecting the data point

1 Introduction and Overview:

1.1 Target Audience

This is the first version of User Manual / SoP for National PAI Portal being developed by NIC. The target audience of this version of the document are the State PAI Nodal Officers, Blocks Panchayats, Gram Panchayats who shall be the primary users of PAI Portal.

1.2 About PAI

The Panchayat Advancement Index (PAI) is a Multi-domain and multi-sectoral index that is intended to be used to assess the overall holistic development, performance & progress of panchayats.

The Panchayat Advancement Index takes into account various socio-economic indicators and parameters to gauge the well-being and development status of the local communities within the jurisdiction of a panchayat. The index typically considers factors such as:

- Infrastructure: Availability of basic amenities like roads, electricity, water supply, sanitation facilities, etc.
- Health and Education: Access to healthcare services, educational institutions, literacy rates, and enrollment in schools.
- Economic Indicators: Income levels, employment opportunities, agricultural productivity, and economic activities.
- Social Indicators: Poverty rates, gender equality, social inclusion, and overall quality of life.
- Governance and Administration: Efficiency and transparency of local governance, delivery of public services, and citizen participation.
- Environmental Sustainability: Measures related to ecological balance, conservation, and sustainable practices.

The Panchayat Advancement Index shall provide public representatives, policy makers, government agencies, and local authorities with valuable insights into the areas that require attention for improvement within the rural areas under the jurisdiction of the panchayats. It helps in identifying disparities, achievement of development goals, and formulating targeted policies and interventions to enhance the overall well-being and quality of life of rural communities. The specific indicators and weights used in calculating the Panchayat Advancement Index can vary based on the goals and priorities of the governing body or organization that develops and utilizes the index.

2 Getting Started:

PAI Portal and App is aimed in facilitating a common integrated platform for collaborative functioning by all Stakeholders involved in the process of PAI. It shall help in automating various functions that are involved in Collecting, Managing, Monitoring and Administering PAI related data and other operations involved in PAI exercise. It shall facilitate and empower all Stakeholders that include Gram Panchayats, Block Panchayats, Line Departments & their offices, Ministries.

2.1 Master Data Management as described in Section 3

2.2 PAI Portal functions and stakeholders

- 1) PAI report
- 2) General Information about SDG Themes, Indicators, data points
- 3) State PAI Nodal Officer
- 4) Block PAI Nodal Officer
- 5) Gram Panchayat Secretary

2.3 User Registration/Authentication

- 2.3.1 State Credentials are same as in eGramSwaraj portal (PR-xxxx-ADM) where xxxx is State Name
- 2.3.2 District Panchayat Credentials are same as in eGramSwaraj portal (PR-xxxx-ADM) where xxxx is District Name
- 2.3.3 Block Panchayat Credentials are same as in eGramSwaraj portal (PR-xxxx-B-ADM) where xxxx is BLock Name
- 2.3.4 Gram Panchayat Credentials are same as in eGramSwaraj portal (PR-xxxx-V-ADM) where xxxx is Gram Panchayat Name
- 2.3.5 Facilitator shall be registered and their Login will be created from PAI Portal by Block Panchayat User
- 2.3.6 Nodal Officer shall be registered by State (where Block Panchayat does not exist) and their Login Credentials will be used in Verifier Role.

3 About PAI Portal (<http://PDI.panchayat.gov.in>, <http://PAI.gov.in>)

NIC has transformed the concept of PAI Framework into realistic implementation termed as PAI Portal. PAI Portal is a Digital Platform to facilitate -

3.1 Management and Definition of Indicators, Data Points and Themes

- A workflow-based system which is configurable for diversified Data Sources, Verifying Offices across State of India
- A Versatile interface for different States and Union Territories as per their localized needs.
- An Interface available in multiple regional languages.

3.2 Master Data

Master Data in National PAI Portal consists of Ministries, Departments, Themes, Indicators, Data Points.

3.2.1 Themes

Planning and execution is aligned with following 9 Themes:–

- 1) Child Friendly Panchayat
- 2) Clean and Green Panchayat
- 3) Engendering Development in Panchayat
- 4) Panchayat with Good Governance
- 5) Healthy Panchayat
- 6) Poverty Free and Enhanced Livelihood Panchayat
- 7) Panchayat with Self Sufficient Infrastructure
- 8) Socially Secured and Socially Just Panchayat
- 9) Water Sufficient Panchayat

3.2.2 Indicator Management

PAI Portal facilitates creation and management of Master Database of Indicators. Master Directory of Indicators can be managed from MOPR Login.

There are two Categories of Indicators –

- Common Indicators are mandatory set of indicators to be used by all. (MANDATORY INDICATORS)
- Specific Indicators are an optional set of indicators which can be selected or de-selected by States (using State Login). (OPTIONAL INDICATORS)

3.2.3 Data Point Management

PAI Portal facilitates creation and management of Data Points. This function is available in MOPR Role only.

3.2.4 Indicator -Theme Configuration

Any Indicator can be part of One or More themes. This function is available in MOPR Role only.

3.2.5 Data Point -Indicator Configuration

A data point can be Numerator or Denominator or Multiplier to be used for computation of Indicator Score at GP Level. This function is available in MOPR Role only.

3.3 Pre- PAI Data Collection

State specific localization and Configuration

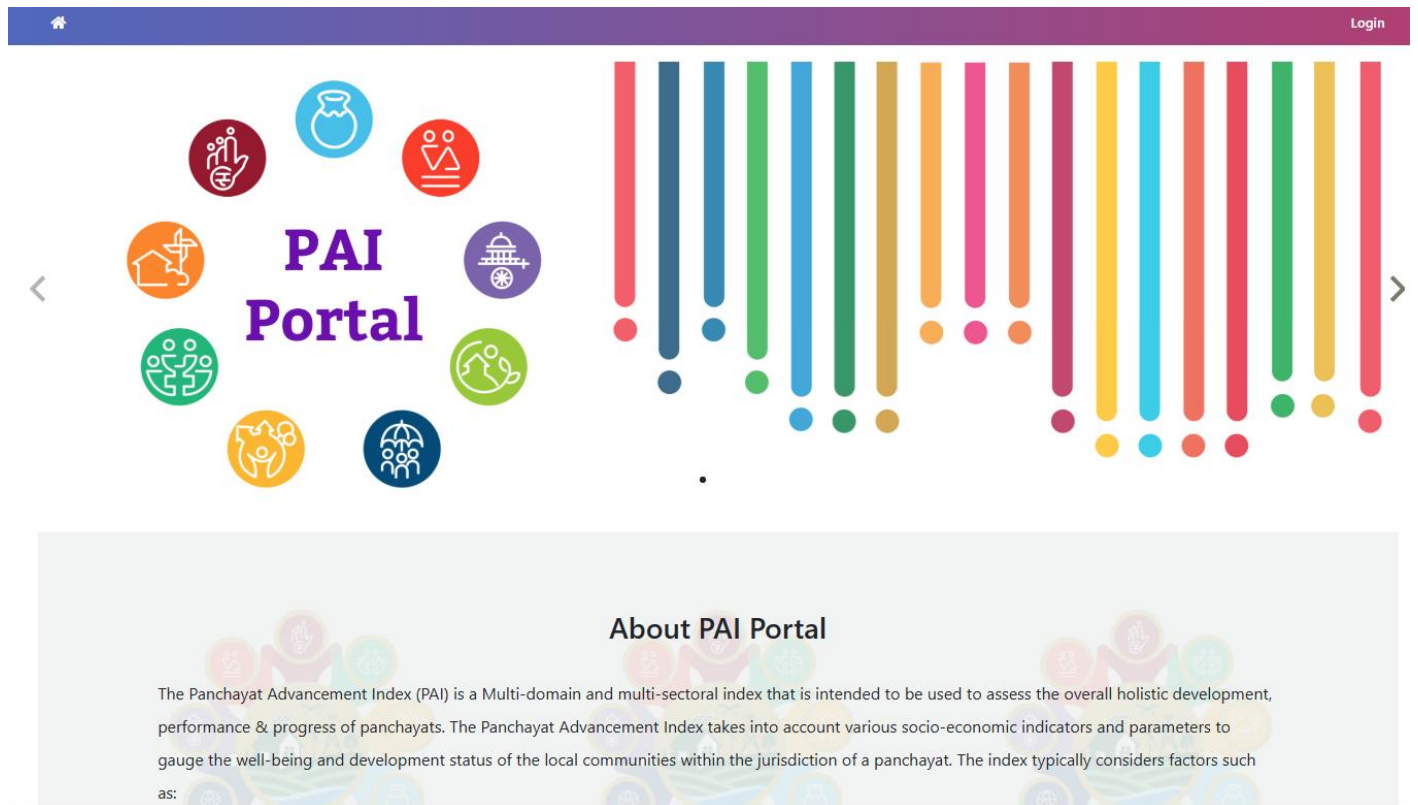

- Register Block Level Offices of line departments who shall be responsible for verification of data of their sector as submitted by the Gram Panchayats
- Register Field level Level Offices of various departments who create / own and maintain the sectoral data related to the GP and shall provide the data to Gram Panchayats
- Select the optional PAI indicators as per their State specific requirements.
- Configure the data points that are to be collected from field. They shall describe in Local Language, mention field office that owns and maintains the data, record hint / instructions related to collection of data point, source register being maintained by field office to be used for getting each data point.

Block Level Configuration

- **Nodal officer Management System**
 - Block PAI Nodal Officer shall be responsible for registering the profile of the block level nodal officers of the line departments.
 - Nodal officers of the line departments shall verify and approve the data of their sector as submitted by the gram panchayats as collected from field offices of corresponding line departments.
- **Facilitator Management System**
 - Block Panchayat PAI nodal officer shall register the Facilitators
 - Block Panchayat PAI nodal officer shall authorize the Facilitators to work in a panchayat

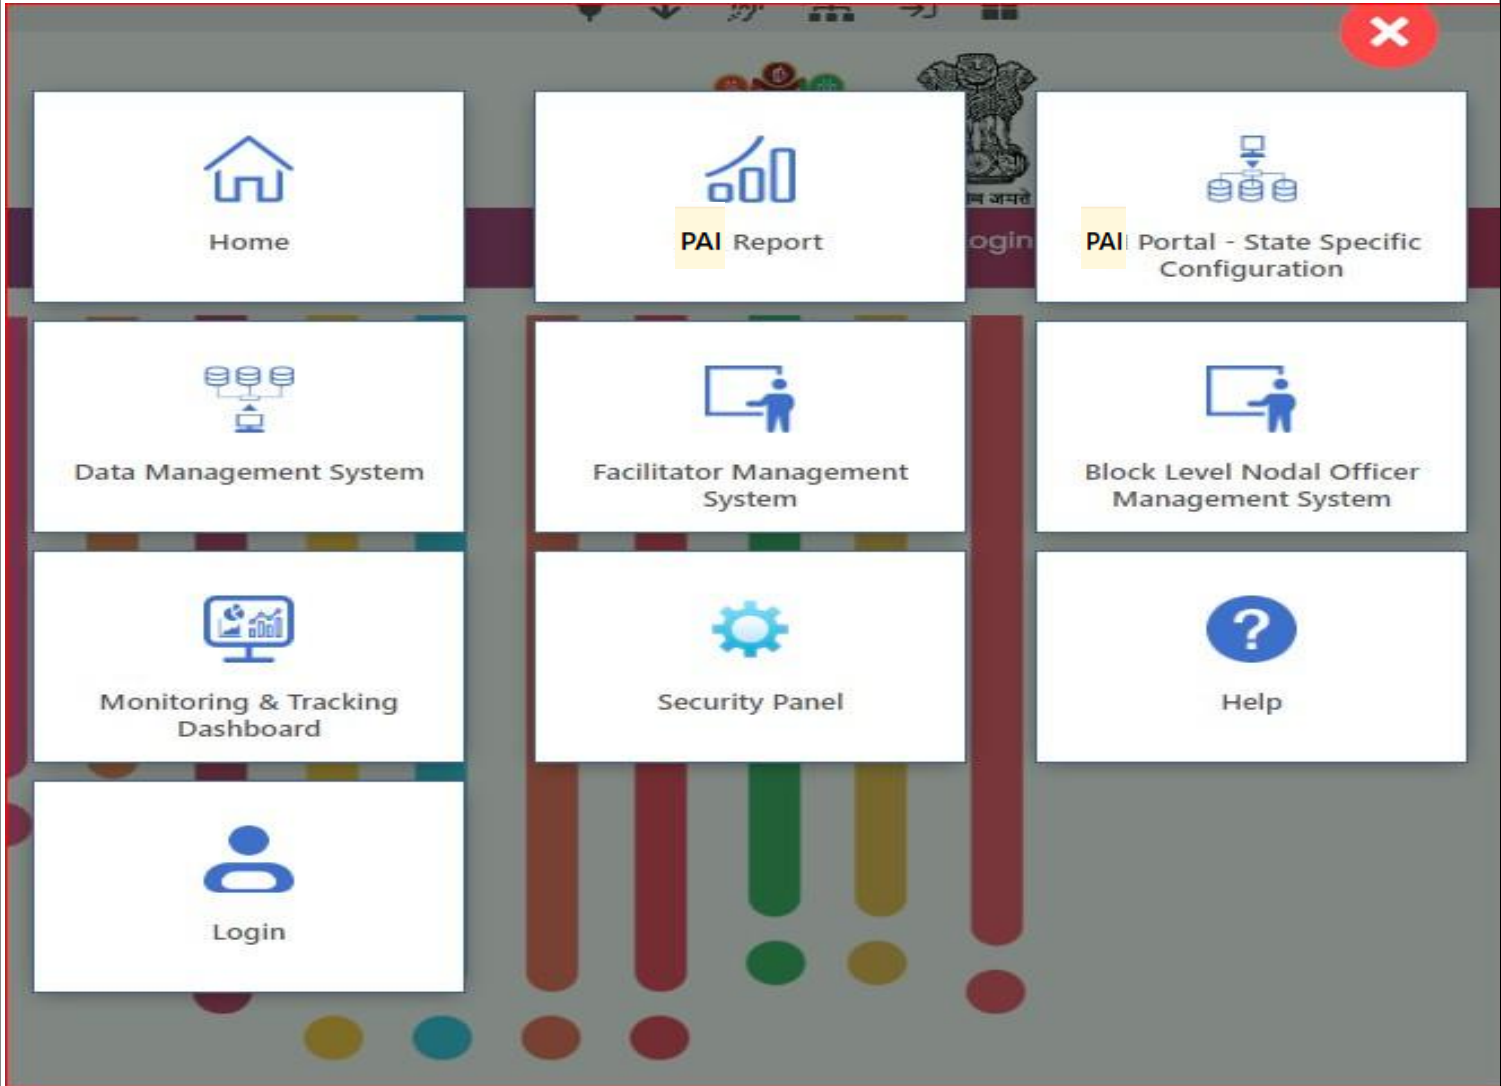

4 User Interface (UI) Overview:

4.1 Home Page

5 Functions and SoP for State PAI Nodal Officers:

1. Formal Consultation workshop with State and field level officials of partner line departments and State NIC officials. They shall discuss the data points, their source and draft instructions for collecting the data points. These instructions shall be followed by all gram panchayats across the State and shall result in high quality and reliable data.
 - a) Examination of Indicators: mandatory and optional.
 - b) Selection of the Optional Indicators that are to be adopted by States in consultation with Line Departments.
 - c) Identification of Block level offices of partner line departments that shall verify and approve the data of their sector / domain as submitted by Panchayats
 - d) Identification of owner and source of each data point i.e., Field Office, Registers. This source shall be used for collecting and verifying the data.
- 2) Shall configure / localize the PAI Portal, its indicators, data points as per the State specific requirements. It shall allow the Panchayat secretary, facilitators and other field level staff to understand the indicators, data points, source field office of the line departments for each data point, registers being maintained by the field office that shall be used for collecting and validating the data.
- 3) Register Block level offices of the line departments who shall verify and validate the data that is submitted by Gram panchayats.
- 4) Register the GP level/field offices under each block level office that own and maintain the data in their records/ registers and shall provide the data to the gram panchayats.
- 5) Shall monitor the progress of the PAI related activities i.e. conduction of orientation workshops, masters trainings and other capability building programs.
- 6) Register details of consultative workshops, training programs, workshops, meetings and other important activities/ events related to PAI.
- 7) Register orders, circulars and other instructions issued for effective implementation of PAI.
- 8) Blocks shall be able to use PAI Portal only after the State has configured it.
